

Where to Report Bugs and Send in Ideas for Improvement

Problems with membership, VPS, NAS, etc. should be reported to our support team. You can also ask for advice in the community list – see [where to write](#).

In order to report bugs or send in ideas about our [projects](#), such as [vpsAdmin](#), we host a [Redmine](#). All members have access to Redmine. They use the same login credentials as they do in vpsAdmin.
