

# Basic Information for New Members

## The Payment Details to Pay the Membership Fee

- Payments are sent to the bank account 2200041594/2010 (Czech Republic) or 2601502873/8330 (Slovakia).
- IBAN: CZ0420100000002200041594, SK2083300000002601502873
- Use the member ID as the variable symbol for the payment. You can find the member ID after logging into vpsAdmin in the “Members” section.
- The same section also contains the date when your VPS expires.
- You pay for three months in advance – either 900 CZK or 36 euro.
- Further details can be found in the [section on payments](#).

## Manage members

ID	NICKNAME	VPS	\$	FULL NAME	LAST ACTIVITY	PAYMENT		
2447	testik	[1]	300	Test Test	2016-12-19 19:04:22	-> 2017-02-01		

When the expiration of your VPS gets near, you will start receiving email reminders. If you know in advance that your payment will be late, please let us know so that we can avoid misunderstandings. <https://webchat.freenode.net/?channel=#vpsfree>

## Can I check whether the payment has arrived?

Yes, the association has a [transparent CZK bank account](#) or [transparent EUR bank account](#). You can use the link to check for yourself whether the payment has arrived, as well as seeing movements of the money that the association has.

## How can I control my VPS?

Log in to the [vpsAdmin interface](#), go to the “VPS” section, click the server ID.

## VPS list [User mode]

ID	HW	OWNER	#PROC	HOSTNAME	USED RAM	USED HDD				
<a href="#">7364</a>	<a href="#">node13.prg</a>	<a href="#">testik</a>	13	<a href="#">testikovovps</a>	28 MB	---				

First, you will see a table where you can find the virtual server ID, the physical server it runs on, etc.

ID:	7364
Node:	node13.prg
Location:	Praha
Environment:	Production
Owner:	<a href="#">testik</a>
Created at:	2016-12-19 18:59:31
State:	active
Distribution:	Debian 8
Status:	running ( <a href="#">restart</a> , <a href="#">stop</a> , <a href="#">open remote console</a> )
Hostname:	testikovovps
Uptime:	00:10:54
Load average:	0
Processes:	13
CPU:	0.00 %
RAM:	28 MB
HDD:	0.00 GB

Directly under this table, you have the option to generate the root's password.

Username:	root
Password:	will be generated
	<b>Warning:</b> The password is randomly generated. This password changer is here only to enable the first access to SSH. You can change it with <i>passwd</i> command once you've logged onto SSH.
Secure password:	<input checked="" type="radio"/> 20 characters long, consists of: a-z, A-Z, 0-9
Simple password:	<input type="radio"/> 8 characters long, consists of: a-z, 2-9
	<input type="button" value="Go &gt;&gt;"/>

Below you can find your IPv4 and IPv6 addresses...

IPv4	37.205.10.22	<a href="#">(Remove)</a>
IPv6	2a01:430:17:1::ffff:382	<a href="#">(Remove)</a>
Add IPv4 address:	<input type="text" value="-----"/>	Add one IP address at a time
Add private IPv4 address:	<input type="text" value="-----"/>	Add one IP address at a time
Add IPv6 address:	<input type="text" value="-----"/>	Add one IP address at a time
	<input type="button" value="Go &gt;&gt;"/>	

The following tables allow you to change DNS servers, change your hostname and reinstall your VPS.

If needed, you can use these to allow iptables, TUN/TAP, FUSE, etc.

FUSE	<input type="checkbox"/>
KVM	<input type="checkbox"/>
LXC nesting	<input type="checkbox"/>
PPP	<input type="checkbox"/>
TUN/TAP	<input type="checkbox"/>
VPS is restarted when features are changed.	
	<input type="button" value="Go &gt;&gt;"/>

## How can I find out what traffic my VPS has?

In the “Networking” section, the total monthly data transfer cap is 3 TB.

IP address	VPS	Category	Date	Protocol	In	Out	Total
37.205.10.22	<a href="#">7364</a>	public	2016/12	all	0 MiB	0 MiB	0.01 MiB

## How are backups managed?

See the [dataset operation description](#).

## Is it possible to set up a PTR record?

All you need to do is to send an email to [podpora\(at\)vpsFree.cz](mailto:podpora@vpsfree.cz) and provide the IP address (IPv4 and IPv6) and where the record should be directed.

## Where can I look for further information?

- make sure to read through our [knowledge base](#)
- read the [answers to frequently asked questions](#)
- join our [mailing lists](#)
- join others on our Freenode IRC channel #vpsfree in [webchat app](#))

If you have any remarks or questions, feel free to contact us at [podpora\(at\)vpsFree.cz](mailto:podpora@vpsfree.cz).
